

Why buyers choose to use ooba Home Loans

Expert Advice

A home finance expert will provide a buyer with advice on how to get 'buyer' ready.

Affordability

By prequalifying a buyer, the buyer has the chance to improve their credit score and affordability whilst looking for a house. This improves their interest rate and chances of approval.

Approval Advantage

42% of buyers are declined by their own bank. By applying to multiple banks using our home loan comparison service, a buyer improves their odds of approval.

Not just a number

A buyer will work closely with a dedicated consultant to structure their application for multiple bank submissions. The consultant is incentivised on the approval of the home loan.

Self-Employed Buyers

A home loans consultant will assist a self-employed buyer to prepare their financials and structure their application to achieve a successful outcome.

Zero Deposit, No problem

We specialise in assisting buyers who are unable to put down a deposit and require a 100% home loan.
