

Dear Angler,

Thank you for your interest in the L'Agulhas - Struisbaai Angling Skins. Here's everything you need to know!

Our goal:

- Funds are for the benefit of Zoetendal Academy. Our school is already in its 25th year!
- Zoetendal Academy is an independent school here at the southernmost tip of Africa, and we depend on our own initiatives and fundraising.
- Our fishing competition is always very successful, and we can finally present it again after the Covid outbreak.

How does it work?

- The angling competition will be composed of a group of smaller competitions, each small competition is known as "skins".
- There is not just one winner for the day, but as many as there are "skins" within the day's larger competition.
- The number of "skins", as well as the duration of the individual "skins" will remain unknown to all anglers until the prize giving at 19h00.
- There are more than enough opportunities to win lots of prizes!

Basic guidelines:

- The fishing competition takes place on Saturday 22 October 2022 at the Deep Sea Angling Club in Struisbaai.
- The fishing area stretches from Brandfontein - Arniston which will provide enough fishing ground for both the rock and beach angler.
- Only edible fish will be weighed in, there will be numerous prizes up for grabs maybe even for the angler who didn't catch anything.
- There is also a section for the junior anglers, we would like to encourage their interest in this wonderful sport!
- Teams are also very welcome.
