WELCOME GR 8 OF 2025

The grade 8 learners saw the end of their welcoming period and officially joined the BD family on Monday, 20 January.

They performed their grade 8 dance, added their bee to a hive, got to put on their school blazers for the first time and sang the school song - not once, but twice! Each grade 8 also rang the small bell, marking the beginning of their journey at Bredasdorp High School. These same grade 8 learners will ring the big bell in five years to mark the end of their school journey.

Welcome, grade 8s! We can't wait to see what your future as a BD brings.

An exciting partnership with a STEM school in the UK

Bredasdorp High School has been selected to partner with High Tunstall College of Science in Hartlepool in the UK. A total of 7 secondary schools have been selected, 2 from Gauteng, 1 from Mpumalanga, KZN, Free State, Limpopo and Bredasdorp High School from the Western Cape.

Our partner school is regarded as strong on STEM subjects which will benefit us. The Tunstall College of Science is in Durham County which is the home of the well known Durham University, which is rated in the top 100 in the world.

The idea of the partnership is to advance the learners' knowledge of STEM careers, they will develop cultural relationships, interact with a "faraway friend" and enjoy learning through an international curriculum.

The project is sponsored by the FI, and involves 700 schools from countries such as UK, India and South Africa. The project will take 3 months to complete during which time we will have four webinars and numerous web calls between the schools. This is a very exciting opportunity for the learners in our school.
