Dienslewering is prioriteit by Chatz Connect Gansbaai (Overcell)

Vir Francois van der Westhuizen, eienaar van *Chatz Connect Gansbaai* (*Overcell*), of soos algemeen bekend onder gemeenskapslede, *Francois se 'Vodacom-winkel'*, is goeie dienslewering 'n eerste prioriteit en belangriker as die produkte wat hy beskikbaar het. "'n Tevrede kliënt met dienslewering, vertel vir 1 persoon - 'n ontevrede kliënt oor swak dienslewering, vertel dit vir 9 ander," het Francois gesê. 'n Ander uitstaande kenmerk van hom is dat hy glo die eienaar van 'n besigheid moet betrokke wees - kliënte moet weet wie die eienaar is en hy moet sigbaar wees. Francois en sy eggenote, Gwyneth, met hulle knap assistent, Sonet le Roux wat die pad al sowat 4 jaar saam met hulle stap, beman tans die winkel.

Aanvanklik was die winkel vir sowat 3 jaar op 3 verskillende plekke in Hoofstraat, voordat Francois in 2002 na die Great White Junction verhuis het, waar die diere-produkte winkel nou is. Daar was hy en sy span bekende gesigte tot 2021, sowat 19 jaar, totdat hy net oor die gang na 'n nuwe winkelruimte verhuis het. Na sowat 4 jaar daar, het hy op 1 April 2025 na die winkel op die hoek in die bekende 'Kekkel en Kraai'-gebou verhuis. Vir sy besigheid is dit nie 'n probleem nie - sy gereelde kliënte weet waar om hom te kry, en die wat nie weet nie, of wat besoekers is, vind baie vinnig uit, aangesien hy nie net baie bekend is en 'n goeie naam vir homself gemaak het nie, maar ook is hy die enigste Vodacomhandelaar in Gansbaai. Die dienste wat gelewer word is onder andere: '*New Contracts, Upgrades, Cash Phones, Accessories, Fibre, Wireless Internet, Prepaid, SIM Swop*'. Daar draai mens nie om voordat jou probleem nie opgelos is nie.

Gwyneth en Francois van der Westhuizen, met Sonet le Roux in die middel.

Francois is oorspronklik van die Kaap en daarna na Bonnievale, waar hy sy groot liefde, Gwyneth, ontmoet het. 'n Tweeling (18), Elmar en Cara, is uit die huwelik gebore. Baie is al in Gansbaai oor die tweeling met hulle uitstaande sport- en musiektalente geskryf. Die twee het egter 'n verantwoordelike besluit geneem en dit is om vanjaar in hul matriekjaar af te skaal met hul sport- en musiekbedrywighede en eerder op hulle studies te fokus vir goeie punte met die oog op beurse. Cara beplan 'n mediese rigting en Elmar 'n besigheidsrigting.

Interessant genoeg, die egpaar is in Oos-Londen by Pep Stores opgelei. Francois was op die punt om na Streeksbestuurder bevorder te word en Gwyneth na Areabestuurder. Toe bedank altwee van hulle en hulle het nog nooit weer teruggekyk nie.

Besigheidsure is: Weeksdae 08:00-17:30, Saterdae 08:00-14:00 en Sondae 09:00-13:00. "Dan is ons ook op alle vakansiedae oop, behalwe op Kersdag. Vir uitstekende diens, besoek hulle gerus by Hoofstraat 64, op die hoek van die bekende 'Kekkel & Kraai' kompleks, of skakel hulle by 079 887 8404, of stuur 'n epos aan overcell@vodadealers.co.za.

Stranded Humpback whale at Robberg Nature Reserve

A young female Humpback whale that stranded on the Island Beach at Robberg Nature Reserve on Monday, 19 May 2025, was humanely euthanised the following morning after multiple failed rescue attempts and a subsequent expert assessment. The incident mobilised a swift response from the Plett Stranding Network, CapeNature, marine mammal experts, and supporting partners including the National Sea Rescue Institute (NSRI) and the South African Police Service (SAPS).

The whale appeared to have run aground on a sandbank and Robberg Nature Reserve personnel were on site to monitor the whale and manage public access to prevent further distress or harm. The whale, estimated to be between six and seven metres in length, was likely a calf from the 2023/2024 calving season. “She appeared to be in good body condition, which made her a candidate for rescue,” said Chanel Visser, senior marine field ranger. “It's possible she became stranded due to navigational error during her northward migration, or there may have been underlying health issues.”

In consultation with whale scientist Dr Gwenith Penry, the NSRI, and CapeNature rangers, the decision was made to attempt a refloat. Over several hours, the team successfully guided the whale back into deeper water on several occasions. However, the whale turned around and re-stranded on all attempts and the team stood down just before sunset.
Though rescue teams are trained and passionate, many factors work against a successful return to the sea. The sheer size and weight of the whale is a challenge. Whales can weigh tens of tons (this one likely weighed five to six tons). Once on land, their own weight can crush their internal organs and cause irreparable damage. The trauma of stranding, combined with dehydration and sun exposure, can put the animal into shock. Even if a

whale is refloated, it may strand again if it's confused, ill, or physically unable to swim effectively. Strandings are rarely the result of one simple cause. Often, they involve a combination of issues. A sick or injured whale may lose strength or become disoriented, leading it into shallow water. Whales use echolocation and shallow sloping beaches like those along the southern Cape can confuse their sonar. In some species (not Humpbacks), whales strand together out of loyalty to one another, even if only one individual is in distress. Shifts in ocean temperature, prey movement, or even underwater noise pollution can cause whales to enter unfamiliar or dangerous areas.

With the whale alive but stranded again on the morning of Tuesday, 20 May, and with public access restricted to ensure safety, the Plett Stranding Network made the difficult decision to proceed with humane euthanasia. The operation was led by SAPS bomb squad expert Johan Ehlers, who has extensive experience in large mammal euthanasia. “While deeply distressing, this was the kindest option to prevent further suffering,” said Visser. “Drug injections are not viable for whales due to their physiology. Explosives remain the most humane method.”
The euthanasia was carried out successfully and the whale will contribute to scientific knowledge and conservation efforts. Blubber and muscle samples have been collected for further research, and additional data will be gathered to support long-term monitoring of whale health, disease, reproduction, and threats in the marine environment. The carcass will be towed out to deep sea for disposal within the next week.
“This incident, while heart-breaking, showed the incredible collaboration and resilience of our network,” said Visser. “We've learned valuable lessons and grown both professionally and personally.”

Fynbos Academy needs support

Fynbos Academy on the farm, Langverwacht, Papiesvlei, Stanford, originally started as an informal daycare center established by a fynbos farmer in Stanford over a decade ago to provide a safe place for children after school. Since then it has grown and developed into a fully-fledged academy, registered as an independent school with the Department of Education as *Fynbos Academy*.

The original daycare center established on the farm was set up to provide a safe place for children to go after school whilst their parents were out working. However, once opened, it did not take long for the teachers in charge to realize that most of the children in their care were far behind where they should be academically.

It was gradually realized that these children needed help, so the decision was made to upgrade the daycare center and turn it into a facility that provides professionally qualified educators to assist with daily homework and extra tuition in literacy and numeracy required to enable each child to reach their full potential. The center became the first academy that was born out of the project and was renamed *Fynbos Academy*.

Apart from assisting with daily homework, professionally qualified educators also provide extra tuition in literacy and numeracy to enable each child to reach his or her full potential. There are 58 learners - grades RR to 7, and 7 teachers. The children are transported daily from a radius of approximately 40 kilometers, mostly from surrounding farms, and they receive 2 meals a day. Fynbos Academy strive to have smaller classes to assist learners who come from difficult circumstances and are unlikely to do well in bigger classes. The main areas where they require support and partnership are: *Educator salaries; *Vehicles running cost ±R1,039 000 per year; *Two additional busses; *Food; *Stationary and textbooks; *School roof replacement.

Their future vision:
The dream would be to expand the current Primary school into a High school over the next 5 years; the availability of land is 13,000m2; their first priority would be to get the school to a sustainable financial position. After this goal is reached. This will require investments to create further facilities. The dream after this is to offer tertiary education on the premises, with a strong focus on technical and agricultural skills development.

Fynbos Academy is a South African registered Non-Profit Organization - 195-240 NPO and is supported by GrapeHub Foundation, a Dutch ANBI registered institution created by GrapeHub B.V. For interested businesses and individuals who are interested to join their cause, Fynbos Academy would love to hear from you: Tel 087 405 2233; WhatsApp 064 880 4632; email info@impaq.co.za; website www.fynbosacademy.co.za.

Boomplanting vir simbolisering van Kerkeenheid

Norman Sauls (VGK) en Floors Avenant (NGK).

Sondag, 25 Mei 2025 was 'n Sending Sondag (Missionaal) wat diep in die harte van die NG- en VG-gemeentes ingekruip het.

'n Goed geordende en gesamentlike Erediens van die NG-/VG-gemeentes, onder leiding van ds Foors Avenant, is aangebied - die vieringe het ook met Wêreld Afrikadag saamgeval. Wêreld Afrikadag gedenk die stigting van die Organisasie vir Afrika-eenheid op 25 Mei. Na afloop van die besonderse diens, is twee bome as simbolisering van die twee gemeentes geplant.

Dr Daniël de Wet van Getuienisaksie was aan die woord tydens die diens en sy tema was '*Die roeping van die kerk soos in tye soos hierdie met die klem op die rol van plaaslike gemeentes*.' Daarna het die ds Sean Esterhuizen van Diaconia van die Wes-Kaap Sinode opgetree met sy tema van '*Diakonia - Ontmoeting met God in Diensbaarheid*'. "Ons vier vandag hierdie saam-behoort, ons gesamentlike geroepenheid en ons saam-in-diens-wees tydens hierdie Erediens," het Floors gesê.

Tussendeur het die kore van die VGK en NGK afsonderlik en gesamentlik gepaste liedere gesing.

Betrokkenes saam met Floors op die kansel was ds Dirk van Dyk, dr Daniël de Wet en ds Sean Esterhuizen. Na afloop van die diens is die gemeente vir 'n koppie tee/koffie en verversings in die Kleinsaaltjie genooi.

Daarna is belangstellendes genooi om die amptelike boomplanting as simbolisering van die eenheid tussen die VG-/NG-gemeentes by te woon. Twee Waterpeerbome, wat regoor Afrika voorkom, is onderskeidelik en met groot opgewondenheid geplant.

Reeds in Mei 2024, saam met die 80ste bestaansjaar van die NGK, is die Gansbaai NG-/VG-gemeents saamgevoeg om as 'n eenheid te funksioneer - asook en spesifiek Bediening Missionaal (NGK) en Getuienisaksie (VGK), onder die nuwe naam: *Gansbaai NH-/VG Bediening Missionaal*. "So is ons toenemend gehoorsaam aan die deel van die eenheid in die Drie-Eenheid en aan die oproepe in die Nuwe Testament daarrondom," ds Floors gesê. "Vandag vier ons hierdie saam-behoort, ons gesamentlike geroepenheid en ons saam-in-diens-wees."

Die Sendingsondag is afgesluit met 'n smaaklike aansitete, voorberei deur die NGK se Bediening Gasvryheid se knap dames. Alle dienende NG-/VG-leraars, besoekende leraars en enkele genooide gaste kon die middagmaal geniet en gesellig saamkuier.

Dr Daniël de Wet, Ds Sean Esterhuizen, Ds Floors Avenant.

Voet in die visblik

Sedert my onthou staan die reuse visblik in Gansbaai Marine se voortuin. Dis net haar rok wat wissel van krismisblink tot begrafnisvaal. Dat sy van naam verander het, wys dat sy iewers op 'n dag getrou het. So af en toe dink iemand genoeg van haar om vir 'n foto om haar lyf te vat, maar andersins leef sy maar 'n eensame lewe.

Your Lucky Star, California was die begin van die visinlegindustrie in 1930 en het wêreldwyd uitgevoer. In 1937 is die handelsnaam *Glenryck* in Suid-Afrika geregistreer. Die naam is gegenereer vanaf ene Jamie Jameson, 'n Kapenaar, se kinders se name t.w. Glenda en Derryck.

In 1940 stort die Kaliforniese mark in duie weens oor uitbuiting van die bronne en die South African Pelagic Fishing Industry bring die Kaliforniese toerusting na Walvisbaai. 1950 sien die koms van Federated Fish Packers Pty Ltd met *Glenryck Pilchards* en *Saldanha Pilchards* as handelsmerke. In 1959 bekom FFP die handelsnaam *Your Lucky Star* en verander dit na *Lucky Star.* FFP word Federal Marine Ltd, wat die bogenoemde handelsmerke vervaardig en versprei. Dit vind plaas in die vroeë 1960's toe Gansbaai Marine ook tot standgekom het.
Die naam wat egter nêrens in hierdie anale genoem word nie, is die van Christopher Harry Dorrien Venn. Dorrien Venn, soos wat hy tot vandag toe bekendstaan, is in 1942 in Rondebosch gebore. Die van Fenne kom vir die eerste keer voor in die pyprekords van Devon, Ierland in die jaar 1176. Die oorsprong van die van Fenne is afgelei van die rivier-en moerasgebied waar die familie gebly het en trouens hulle eie stam gehad het.
Die Venn familie moes van die eerste Britse Setlaars gewees het om aan die Kaap te kom vestig, gegewe die geboorteregisters van daardie tyd. Ek kon egter geen skeepsrekord opspoor nie.
C.H.Dorrien Venn het op 38-jarige ouderdom, op 29 Augustus 1980 die maatskappy *Poseidon Sea Products (Pty) Ltd (M1980007693)* gestig saam met NVT Group Administration Services (Pty) Ltd.

Dalk was dit 'n opportunistiese besigheidsbesluit in die lig daarvan dat Federal Marine in daardie jaar weens hoë aanvraag en lae produksie moes begin om geblikte vis in te voer? Hoe sal ons weet? Venn het 'n kleinerige fabriek met 'n lanseringstrook by Romansbaai gebou en later uitgebrei na die gebou op die hoek van Van Dykstraat en Fabriekstraat in Gansbaai. Presies hoe lank hierdie onderneming lewensvatbaar was, weet ek nie, maar hy was direkteur/aandeelhouer in baie marine produksiebedrywe:- Federated Fish Packers ; Trawl Tech; John Ovenstone Walvis Bay; Walvis Bay Canning; River Holdings; Glenryck Foods; Premier Foods; Ovenstone Industries en Tristan da Cunha Fishing Co, om maar 'n paar te noem. Dorrien Venn besit saam met Ovenstone aandele in die MV Edinburgh, 'n 1085ton fabriekboot vir kreefvangste rondom Gough-, Nightingale- en Inaccessible-eilande. Buiten die langlyn fuike is die boot ook toegerus met kragbote wat met potte kreef vang en sy kan 12 passassiers vervoer tydens rondomvaarte van twee maande tussen Tristan en Kaapstad. Eienaardig is hierdie boot te water gelaat in dieselfde jaar wat Venn Posiedon hier in Gansbaai begin bedryf het.

Christopher Harry Dorrien Venn het sy voete in 'n hele paar visblikke gehad. Miskien moet die beeld van Poseidon by Kleinbaai se lanseerplek aan hom opgedra word.

7de Merwida-generasie se wyne

Marmara de Klerk, Lieza en Paul van den Heever, saam met Charl Terblanche.

Met Gansbaai Wynproegilde se byeenkoms op 20 Mei 2025 in die Great White House, is die uitstekende wyne van 'n unieke Familieplaas, Merwida, se 7de generasie-familielede geproe. “Dit is vir ons 'n voorreg om hierdie besonderse wynplaas se Fasiliteitsbestuurder en Bemarkingsbestuurder, Lieza van den Heever, née Van der Merwe - wat die eerste vrou in die familie se wynbedryf is - by ons te verwelkom,” het voorsitter Japie Spies gesê. “Sy en haar eggenoot, Paul, 'n vlieënier, het spesiaal hulle kleinding by Paul se ouers in Hermanus gelaat om vanaand hier by ons te kan wees.”

Lieza het spreekwoordelik tussen die wingerde en die wynkelder 'grootgeword'. “My lekkerste kinderjare was om saam met my pa, Schalk van der Merwe, vars sap in die kelder te gaan proe,” het sy gesê. Lieza beskik onder andere oor 'n BSC Wingerd & Wyn graad (Universiteit van Stellenbosch, 2022) en Cape Wine Master, 2021. Haar eerste pars was by Groot Constantia saam met Boela Gerber en sy het ook in Amerika en Duitsland gepars. Lieza is nou sowat 10 jaar weer op die plaas - vir 8 jaar saam met Magnus Kriel (hoofwynmaker) in die kelder. “Met die oopmaak van ons nuwe proelokaal, het ek my 'kelderskoene' opgehang en is nou sowat 2 jaar Fasiliteits- en Bemarkingsbestuurder,” het sy vertel.

Lieza het die gaste met 'n *Blanc de Blanc Cap Classique* verwelkom. Die res van Merwida se uitstekende wyne wat sy te proe aangebied het en breedvoerig beskryf het, was: *Waterblommetjie Pinot Grigio* 2024 (Papenkuils-reeks); *Sauvignon Blanc* 2024; *Chenin Blanc* 2024; *Family Vintners Chardonnay* 2024; *Barbera* 2023; Pinotage 2023; *Cabernet Sauvignon* 2020. Die gaste se keuse vir die beste wyn van die aand was die *Chenin Blanc* 2024, die beste rooiwyn was die *Barbera* 2023 en die beste witwyn was die *Sauvignon Blanc* 2024.

Anita Botha, Annasofé en Japie Spies, saam met Lieza en Paul van den Heever.

Die voortreflike spyskaart van Chef Chris Pead het perfek by die wyne gepas, onder andere die *Smoked Kelp Crusted Springbok Loin* met bykomstighede.

In 1840 het Willem Petrus van der Merwe, voorvader van die huidige eienaars Schalk en Pierre, familiewortels in die vrugbare gronde van die Breederiviervallei neergelê, wat intussen die tuiste van Merwida Wyne geword het - nou reeds in die 7de geslag van die familie. Dan is daar nog die Papenkuils Vleiland se vrugbare grond langs die Breede Rivier. Merwida het gegroei tot een van die grootste wingerde in privaat besit in Suid-Afrika, met meer as 800 hektaar wingerd en 24 verskillende druifsoorte wat verbou word. Hulle koop geen druiwe aan nie en hulle wyne bestaan uit 40% wit en 60% rooi. En so het Gansbaai Wynproegilde hulle 4de gesellige wynproe-aand afgesluit, terwyl daar gesellig saamgekuier is.

Die Familieplaas, Merwida, se 7de generasie familie.

Crocodia aurata is a lichen species with a pale green to grey main body (thallus) and distinctive yellow-green edges (soralia) that produce its reproductive units (soredia). This striking colouration has earned it the nickname "gold specklebelly lichen."

It thrives in humid, coastal environments, typically growing on sheltered, moist tree bark or rocks. Interestingly, its thallus turns bright green when wet, making it even more dazzling after rainfall.
