5. **Rules of Golf**

A player may use equipment to help their play during a round, except that a player must not create a potential advantage by using equipment (other than a club or a ball) that artificially eliminates or reduces the need for a skill or judgment that is essential to the challenge of the game. This is especially true on the putting green in preparation for putting.

Although a player may use their club as a plumb line to assist in judging or gauging slope and contours, there is other equipment that a player may not

use in judging a slope or contour. For example, a player is not allowed to gauge slope by:

- Placing a bottled drink to act as a level.
- Holding or placing a bubble level.
- Using a weight suspended on a string as a plumb line.

I have checked the rules and the use of a flag or burgee on a golf cart or bag trolley to indicate the wind direction is also not allowed. So people please do not use these in club competitions in future. There is an exception to the flag issue and that is the use of a blue disabled flag attached to a golf cart. It indicates that a golfer is using a golf cart because of a disability that makes walking to their ball difficult.
