Nuusbrief 23 Februarie Newsletter 23 February 2017

THE SOUTHERNMOST GOLF COURSE IN AFRICA DIE MEES SUIDELIKE GHOLFBAAN IN AFRIKA

Beste golf vriende / dear golf friends

Die vergange maand het 'n paar vernaderinge opgelewer. Onder andere het ons gholfsaal 'n nuwe diens voorsiener met die idee dat die mooi saal beter benut sal word en sodoende nuwe en meer voete na ons klub sal bring. Lees berig op bladsy 6.

Ons klubkaptein Jacques Nell het ook bedank om meer aandag aan sy besigheid te skenk. Daan Victor sal nou sy posisie beklee tot die volgende komitee verkiesing. Ons wens Jacques alle voorspoed toe, ons gaan hom mis en hoop darem dat hy nie te lank sy gholfstokke gaan bêre nie.

The past month brought a few changes. Our golf hall has a new service provider with the idea that the hall will be better utilized and will bring new and more feet to the club. See insert on page 6.

Our club captain Jacques Nell, has also resigned to focus on his business. Daan Victor will fill his position till the next committee election. We wish Jacques all the best, we will miss him and hope that he will not let his clubs gather dust for too long.

FLORA

This beautiful flower commonly known as the candelabra, Latin name *Brunsvigia orientalis*, forms part of the Amaryllidaceae family. It is unusual in its beauty and surprises one as it seems to pop up from nowhere growing in seemingly unfertile conditions.

Photo—own

Hierdie blom van die amarilda familie is statig en masjesteus, ongetwyfeld hoekom dit die koningskandelaar genoem word. Hulle blom tans oral in die Gansbaai omgewing en versier ook ons gholfbaan.

A refresher on

HOW IS MY HANDICAP CALCULATED? - from the horse's mouth

How is my handicap calculated? The standard calculation is based on 96% of the average of the 10 best differentials from the last 20 scores entered in your profile. Your differential is the difference between your Adjusted Gross Score (gross score adjusted for the maximum score on any hole) and the Standard Rating of the tee you played from.

How often is a new handicap calculated? handicap is recalculated overnight after every score that is submitted, so it could change daily. You therefore need to check your handicap on the terminal, internet or the Handicap phone app before playing.

How is my handicap calculated if I have played fewer than 20 rounds? If you are new to the system and have at least five but fewer than 20 scores in your profile, the number of differentials used for your handicap calculation will be determined as per the table in point 7.8 of the SAGA Handicap Manual, which can be found in us13.list-manage.com/track/.

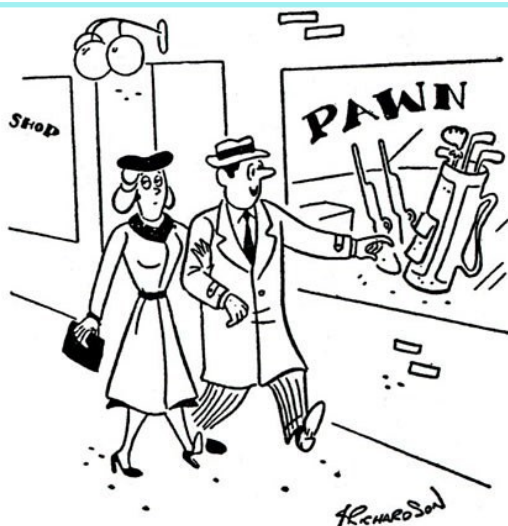

I've played very badly of late. Why is my handicap still the same? When trying to understand the movements in your handicap (or in this case, the lack thereof), you must remember that the system only uses your 10 best scores from the last 20, so unless a new bad score eliminates an older good score, your handicap won't change.

What is an exceptional score? A score is flagged as exceptional when the differential is three or more strokes less (better) than the player's handicap at the time the round was played.

How can an exceptional score affect my handicap? Having a single exceptional score in your last 20 rounds will not have any impact on your handicap. However, should you score a second exceptional score within your 20 most recent scores, then the system will recalculate your handicap by using your best eight scores (instead of 10). How long will this affect my class handicap? Your class handicap will be calculated using the best eight differentials until there is only one exceptional score in your last 20 scores.

Is there a time limit for the entering of scores? All scores must be submitted within 72 hours of the completion of the round. The period of 72 hours is taken from on the day of play to three days later. Scores not returned during this period will result in a penalty score.

Fires are very dangerous during the dry summer months. Unfortunately our golf course was not spared. A fire broke out on 15 February but the fire fighters were on the scene quickly and the fire was put out before it caused too much damage. It happened on the third fairway. Please look after your cigarette butts so that they will never be not to blame for such disasters.

Op 'n gelukkiger noot het die 7de skoonveld 'n waterpoel gehad as gevolg van onlangse goeie reën.

En nou is die gras te mooi groen waar die water was.
