NEW HANDICAP SYSTEM FROM 1 OCTOBER 2019

“Nine-hole scores”

Nine-hole competitions and nine-hole rounds are becoming increasingly popular globally. This is mainly due to the time it takes to play 18 holes, but also due to personal preferences. As such, 9-hole scores are an important part of the handicap calculation.

We are sure you have noticed that, at many courses, one nine plays harder than the other nine. To ensure that the Handicap Indexes are as close as possible to the golfer's ability, we will be introducing nine-hole Course Handicaps and a revised nine-hole handicap score calculation on the 1st October 2019. This will be in line with that required under the World Handicap System Rules coming in January 2020.

The basics: what you need to do when playing nine holes: From the 1st October, simply look up your 9-hole Course Handicap, which is what you will play off for the nine you elect to play. When entering your score, use your 9-hole Course Handicap to adjust your maximum score on any hole that you blow out on and enter this Adjusted Gross Score for nine holes – the system will do the rest.

Detailed explanation of the change to 9-hole score calculations on 1 October 2019

The current 9-hole system: Our current 9-hole handicap calculation takes the nine-hole Adjusted Gross Score you enter and the Slope of the tee you played off, and then adds par for the second nine, plus half your handicap strokes, resulting in an 18-hole Adjusted Gross score. The actual calculation is as follows: **9-Hole Score Differential = (Adjusted Gross Score for 9 holes x 113/Slope Rating + second nine par + 0.5 x Course Handicap) - Course Rating.**

Future World Handicap System: When all the courses in South Africa were rated with the USGA Course Rating System, a Course and Slope Rating for each nine, as well as for the overall course, was determined and is currently published on the HNA website. As of October 01, we will now use these 9-hole ratings to determine your nine-hole Course Handicap.

Example: *On some courses, although par is the same on each nine, the Course Rating and Slope can be very different. For example, if we look at Randpark Firethorn, the par-72 course where the 2019 SA Open was played, we can see that the White course for Men has a CR/SR of 36.0/132 for the front 9 and 37.7/139 for the back nine, with an overall rating of 73.8/136. So the 18-hole Course Rating is 73.8/136, but it is different by 1.7 shots on each nine and the Slope rating varies by 7.*

Therefore, if a golfer at Randpark always plays the harder nine, with a CR of 37.7/139, under our existing system of just using the 18-hole Course Rating, he/she would have a Handicap Index higher than it should be.”

For the past four years, Gina Esterhuizen compiled this monthly Newsletter. No doubt, she did a sterling job and she enjoyed the challenge. Recently however, she decided it is time to take a break. We applaud her for her effort, diligence and personal touch to produce this special periodical. We suggest that she utilizes her extra free time to travel and play more golf!

Tydens die afgelope vier jaar stel Gina Esterhuizen maandeliks hierdie Nuusbrief saam. Ongetwyfeld het sy puik werk gedoen, maar sy het onlangs besluit om eers die tuig neer te lê. Ons prys haar vir die moeite, ywer en persoonlike stempel wat sy afgedruk het om hierdie spesiale tydskrif te produseer. Ons stel voor dat sy die meer vrye tyd sal gebruik om te reis en gholf te speel!
