

OGG Request for Funding Assistance: Repairs to Nomzamo ECD School Wall, Zwehlile Township, Hermanus

Early-May 2026 southern Cape winter storms and winds, caused extensive damage in the Overstrand Municipality, including the Nomzamo ECD School walls as per the images below. The Overberg Geoscientists Group (OGG) are assisting the School Governing body, with fund-raising to rebuild the wall and supervise the repairs. Quotations for robust repairs, including proper foundations to support the new wall, are approximately R60 000.

Some financial commitments have been received, with thanks, to assist with the repairs. We would greatly appreciate additional donations, big or small, to help complete this work. Contributions for the repairs will be ring-fenced and fully accounted for by the OGG. OGG Bank account details for collection of funds and payments for repair work, are listed below.

With Thanks. Kind Regards, JOHN BRISTOW (m: 082 571 3004; email: jwbdia@gmail.com)
