RIPASSO VALPOLICELLA

Established as a DOC in 2010, the *Ripasso* method is utilized to produce Valpolicella Ripasso by combining leftover lees with standard Valpolicella wine for a second fermentation to create a deeper, more character-laden wine. The **grape varieties** used to produce Valpolicella Ripasso are **Corvina**, **Corvinone** and **Rondinella**.

Corvina is generally regarded as the finest of the three and is certainly the most traditional. Despite its thick-skins, the variety typically has a lack of colour and tannin content, however, this does make the variety ideal for air-drying. Rondinella is primarily employed to contribute herbal characteristics to the resulting wine. The DOC requires between 45 and 95 percent Corvina and 5 to 30 percent Corvinone.

AMARONE DELLA VALPOLICELLA

Amarone della Valpolicella is one of Italy's most iconic red wines, a bottle that carries centuries of knowledge, a touch of mystery, and a clear sense of place. Made exclusively in the Valpolicella region of Verona in Veneto, Amarone is a dry, full bodied, long aged red produced from partially dried grapes. The origins of Amarone feel almost mythical. Although the technique of making wine from dried grapes dates back to the ancient Greeks, Amarone as we know it began as an accident. A forgotten Recioto barrel was left to ferment far longer than intended. When the winemaker returned, the sweetness had disappeared. What remained was something powerful, dry, rich and unexpectedly beautiful. Instead of Recioto, they had created "big bitter": **Amarone. That happy mistake would become one of Italy's greatest contributions to the world wine.**

Amarone is never a single-varietal wine. Instead, it is a precise blend, protected by strict DOCG regulations.

The main **grapes** are **Corvina Veronese**, the soul of Amarone. It brings structure, spice, floral lift and the signature sour-cherry profile. **Corvinone**, once considered a Corvina clone, now recognized as its own variety. It adds power, body and beautiful dark-fruit depth. **Rondinella**, essential for color, stability and aromatic brightness. **Molinara**, **Oseleta** and other local red grapes permitted in small percentages to add complexity. Corvina and Corvinone together must make up most of the blend, anywhere between 45% and 95%. Rondinella is required between 5% and 30%. Up to 25% of other approved red grapes may be used.

After the harvest, the grapes are carefully selected, and the healthiest ripest fruit is placed in cases in a well-ventilated room to raisin for 3-4 months. After this period the grapes are pressed, left on the skins for 15-20 days at the temperature of 23°-25°C, and fermented till becoming the delicious wine that Amarone is. **The wine is aged in oak barrels for 36 months.**

Although Pinot Noir has fruity flavours, this isn't an indication of sugar content – this wine is almost always made in a dry style.

Terroir Selection

The wines under the surname "**Terroir Selection**" are single varietal Chenin Blanc / Chenel and Pinotage, whose grapes are mainly from the flatter front plots of our farm, and whose taste tends to be fruity, fresh and delicately nuanced. From the pure active limestone rim of Springfontein under the ocean's cool breeze, these wines with its great ageing potential are a wonderful expression of our estate's unique "Kalksteen" terroir, its particular fynbos vegetation around, the Antarctic Sea waters close behind and the massive cloud catching Kleinrivier mountain range just in front.

Chenel – R 480.00 per Bottle

This Chenel is true to the terroir characterized by cool climate and limestone soils. It has apple and peach notes on the nose, minerality and soft acidity on the palate. The oak aromas are well integrated and very subtle on the taste.

Pinotage – R 350.00 per Bottle

With our calcareous soils and cool micro-climate, we give the grapes the time on the vine they need, so that stems, skins and pips can prove what they are really made of, even or particularly the Pinotage. Our Pinotage has red fruits and berries on the nose with hints of wild herbs and savory notes. On the palate, the wine has a medium body with well structured, and well-rounded tannins, finishing off with a touch of earthy and spicy notes.

Chenin Blanc – R 350.00 per Bottle

This Chenin Blanc is true to the terroir characterized by cool climate and limestone soils. It has fresh fruit aromas on the nose, rich minerality and soft acidity on the palate. The oak aromas are well integrated and very subtle on the taste. The palate is lively, creamy and finishes off well with good length.

Cape Moby

This wine hails from the path of Ahab at the Cape still full of Good Hope, where in rarest moments the Cachalot Whales feed in the Agulhas current, wine and whales are the stuff of legends. Like Ishmael, with sure hands and a clear vision, the Springfontein family, together with Johst Weber's South African "daughter" Mariska Kammies bring you this bottled tale. It's a saga of cold nights, hot days, driving winds, and cool rain along the jagged coastline of Table Mountain Sandstone, softened granite, and dunes of purest chalk and limestone rocks.

Pinot Noir – R 350.00 per Bottle

Pale garnet in colour with delicate aromas of pomegranate and hints of all spices. Palate is light bodied with structure and a round lingering finish of cherry. Its elegant, balance with subtle oak aromas. A nose that has delicate earthy aromas combined with red and black berry flavours. All these characteristics follow through to the palate with an intensely savoury note and soft tannins.
